Gentlemen;

I want to tell you that it has been a pleasant experience working with professional people like Bruce Ott during construction of our building.

Although our building was built in stages and unusual circumstances; the first building, our moving of merchandise, Tearing down the old building, and the building of the second half, was coordinated well.

Our building is open to you to show prospective customers of yours as I would recommend your Company to anyone as 1st Class concern.

Sincerely,

Paul J. Staashelm Sr.
